ie. JPEG, Raw/NEF, GIF, Bitmap

Are there specific final image size requirements for these photos, ie A4, A3 A2 4x6, 5x7, 8x10, 10x12, larger sizes ie poster size?

Rates and Charges applicable

Residential Projects as described above have the indicated rates applied to them.

Other types of Projects

All other types of projects are available on request and different rates apply to these projects based on the volume of work and the nature of the project.

Note that Commercial and Industrial projects will have site issues with regard to WHS and site inductions and security clearances needing to be resolved before work can be undertaken. A prior walk-through of these sites is required to discover any WHS safety issues that might be present where photographs are to be taken from, an on-site person from your organisation would be a good idea as they are familiar with the site. Depending on the nature of the project and the size of the site may negate the need of this. A preliminary site visit is mandatory for these types of projects to establish this.

Timeframe for this project??

Again - Description of your project / Further information

In order to best provide you with these services, please describe the project for these intended images, with special regard to special features and details you might wish to highlight apart from the overall building, such as the period or era when it was built, method of construction and features, finishes and details. Please send an email outlining your requirements with regard to your project, and those question above email this to ben@talmans.com and phone +61414948448 to confirm
